Taking Care of Your Banner

Congratulations on your banner purchase! Your banner was produced with high-quality inks and vinyl.

To extend the life of your banner, please follow the care instructions below:

1. For a digital print banner - always roll your banner with the design to the inside.
2. For a cut vinyl banner - always roll your banner with the design to the outside.
3. Keep banner away from solvents such as paint thinner, acetone, alcohol, gasoline, etc.
4. Do not use harsh substances like cleanser or scrubber sponges on banner.
5. Clean with a soft rag after each use.
6. Make sure it is completely dry before you roll it up. Do not store when wet or damp.
7. **NEVER FOLD THE BANNER!**
8. Never use a rubber band to secure the banner roll as this will cause creases.
